(0.10 seconds)**» **List view**[Cover view](#)» **Sort by relevance**[Sort by date \(new first\)](#)[Sort by date \(old first\)](#)» **Any status**[Issued patents](#)[Applications](#)**Compositions containing bioactive glass and their use in treating tooth ...**

US Pat. 6328751 - Filed Mar 31, 1996 - US Biomaterials Corp. University of Maryland, Baltimore

In addition to direct application of the bioactive glass to the teeth, the bioactive glass composition of the present invention can also be applied in ...

TOOTH FILLING AND FACING COMPOSITIONS COMPRISING A RADIOPAQUE GLASS AND ...

US Pat. 3601344 - Filed Jun 30, 1971 - wens

... produces a filling and facing COMPRISING A RADIOPAQUE GLASS AND composition that has a color resembling that of natural METHOD OF MAKING THE SAME teeth ...

TOOTH FILLING AND FACING COMPOSITION

US Pat. 3911581 - Filed Apr 25, 1972 - wens

17, 1970 and now 5 mal expansion matching that of natural teeth, ... The filler

composition itself generally comprises a glass having an effective amount of a ...

Composition for use as a filler in tooth filling and facing composition and ...

US Pat. 3975203 - Filed Feb 20, 1974 - Owens-Illinois, Inc.

The optimum radiopaque glass is one consisting of match that of natural teeth, ... a

composition is a finely divided inorganic material such as glass- ...

Method for reducing the viability of detrimental oral microorganisms in an ...

US Pat. 6342207 - Filed Oct 16, 2000

Especially the individual's teeth down to the gingival margin and/or the periodontal ... The bioactive glass is preferably administered as a composition

...

Coating composition for teeth

US Pat. 6048913 - Filed Aug 17, 1998 - Kao Corporation

It is necessary invention, a pigment can be added in order to make teeth to select the ... Examples of the glass include, silica stirrer, condenser, ...

TOOTH FILLING AND FACING COMPOSITIONS

US Pat. 3826778 - Filed Feb 17, 1970

{ preferred that the radiopaque teeth, and being radiopaque to X-rays used by ... to provide a composition having all of the above- the radiopaque glass is ...
